

# GRID

## Blind Coding

### Rules and Guidelines

1. This is an individual event. The entry fee is Rs.50/-
2. The participants will be assigned a computer and the monitor of the computer will be turned off.
3. The participants will then be given problem statements in C language and they will be asked to type the proper code for the execution of the problem statements.
4. The participant who is able to type the right code the fastest will be given the higher preference.
5. The second preference will be given to code with least number of errors.
6. In case of tie in number of errors, time of submission will be considered.
7. The participants will not be allowed to modify the code once they submit it for the execution.
8. Any attempt to turn the monitor on will result in disqualification of the participant.
9. Prelims (written test) will be conducted if necessary.
10. The decision of the organizers in declaring the results will be final.  
No queries in this regard will be entertained.
